14. What measures do you take to encourage student's participation in & out the class rooms ?(75 words)

18 responses

Personally, I believe that whatever I expect from my student , I should first do it myself. Believing this, coming on time everyday, behaving affectionately with the students, encouraging them to participate in sports activities, going with the students for some activity outside the state these are some of the things in which I have participated with great enthusiasm and though not 100% , to a great extent , all these have increased the participation of the students.

Presentation

Presentation and by giving the opportunity to give their view on different topics or own interest

We always motivate the class and do presentation class & activity programmes

In order to encourage students participation in and out the classroom I always try to align their personal interests and goals with their inside learnings. I never do all the teaching myself rather I focus to engage them to describe the topic on their own by correlating them with their daily life activities . Moreover, I try to give them such group assignments that my foster Leadership qualities in them with a sense of collectiveness and accountability.

I take the following various measures to encourage students participation in and out of the classroom

- 1) Creating a supportive learning environment
- 2) Encouraging open discussions and debate
- 3) Producing opportunities for student reflection and feedback
- 4) Recognizing and rewarding student achievements
- 5) Encourage participation in competitions or events
- 6) Provide guidance on career or academic goals
- 7) Celebrate student achievements and success

To encourage students participation inside classroom. I use interactive teaching methods like by asking thought provoking questions and gives presentations and also by recognising and rewarding students achievements. By providing feedback and encouragement and always being approachable and available for support.

For outside classroom encourage participation in competitions or events and encourage them to take on leadership roles and by providing guidance on career or academic goals and celebrate their success and achievements and encourage them to pursue their passions and interests.

Mentor-Mentee Meet, Career Counsiling, Motivational and Interactive Session with them. discuss their professional gool in life and encourage them to achieve it. Conversation with them regarding their hobbies, and personal achievement and appreciate them for their devotion and Hard work. Make them aware about there career opportunities, and importance of technical "awareness. Motivate and quide them to be physically and mentally healthy.

- 1) project works
- 2) creative writing like spot writing
- 3) regular activities like debate and quiz,etc
- 4) students are involved in the various work of the department

Students are motivated in the class to understand cultural concepts and comprehend these in everyday life. They are encouraged to undertake extra curricular activities and community services through NSS,NCC and other community based programmes. Sometimes workshops in painting and theatre are organised.

Students are encouraged for extra curricular activities,text other than syllabus are introduced to then for extra reading

Personally, I believe that whatever I Expect from my students, I should first do it myself. Believing this, coming on time every day, behaving affectionately with the students, encouraging them to participate in sports activities, going with the students for Some activity outside the state-these are some of the things in which I have participated with great enthusiasm and, though not 100%, to a great extent, all these have Increased the participation of the stodents.

- 1)By providing/assigning role & responsibility to each & every student in the classroom (co-curricular activities) as well as extra-curricular activities.
- 2)By appreciating their work

Participating learning, asking questions, answering questions and mentoring are a few methods to encourage students participation in class. Moreover, addressing students by their names is a small but effective way to make them feel important.

Consider requiring students to lead discussion or to submit discussion questions before class.

महाविद्यालय का शानदार अकादमिक वातावरण प्रत्येक वक्ताकी को नहीं मिला पता है। विद्यार्थियों में अत्मविश्वास भरना , उन्हें उनके भविष्य से परिचित करवाना , उनके व्यक्तित्व के अनुसार उन्हें आगे बढ़ने के लिए प्रेरित करना हमारा ध्येय होता है । उन्हें क्या पढ़ना है ! कैसे पढ़ना है? इससे इनके जीवन पर कैसा प्रभाव परेगा इन बातों से विद्यार्थी स्वयं से एवं शिक्षा से गहरे जुड़ने लगते है । उनका मन बदलने लगता है और वे महाविद्यालय एवं विभाग से भी जुड़ाव महसूस करने लगते है। आधुनिक तकनीक से पढ़ना - समझना युवा पीढ़ी भी सहजता के लिए जरूरी है।

विश्वविद्यालय तथा यू.जी.सी के नियमानुसार छात्रों की 75% वर्ग में उपस्थिति अनिवार्य है । सेमेस्टर पद्धति के अन्तर्गत छात्रों का समुचित विकास हो, इसलिए बार-बार उपस्थिति की ओर ध्यान आकृष्ट कराना अति आवश्यक है। वर्ग में व्याख्यान के कई हिस्से होते हैं। पाठ्यक्रम की जानकारी, पाठ्यक्रम का प्रत्येक दिन की दिनवर्षा के साथ विभाजन, समयानुसार व्याख्यान, प्रायोगिक तथा व्यावहारिक वर्ग संचालन की बेहतर व्यवस्था विभागीय गतिविधियों में छात्रों को सहयोग के लिए प्रेरित करना आदि। छात्रों के बेहतर पठन-पाठन हेतु उन्हें प्रतिदिन उत्प्रेरित करने तथा पुरस्कृत करने की भी आवश्यकता होती है।

छात्रों की 75% उपस्थिति की अनिवारिता को बताने के साथ साथ क्लास की पढ़ाई में विविधता के साथ साथ छात्रों के बीच प्रस्तुत केर्तावो क्लास रूम में di महाविद्यालय में चल रहे द्विबिन्न गतिविधि की जानकारी देता । उसके महत्व को बताने के साथ साथ उन गतिविधियों में शामिल होने का निवेदन करता।

## 15. Your suggestion:

16 responses

So far as suggestion for institutional improvement are concerned, I believe that suggestion should be made only where there is hope of implementation. I have almost lost hope of this from my institution. I have received nothing but 99% betrayal from top to bottom - academic, structural, economics, social and intellectual -from all aspects. Still, formally my suggestion would be that the teacher should get respect first of all from every part of the college administration. If the principal has give any instructions or assurance verbally, then he should stick to it and should not send his subordinates teacher's to the peon.

Physical and digital may be strengthened

Number of classrooms should be increased

Basic infrastructure like classrooms and toilets must be improved as soon as possible

Improve infrastructure and provide technical equipment ( like computers printers.)

- 1)more infrastructure is needed
- 2) library facilities should be free in the department also
- 3)water purifier is needed in the department
- 4) focus on cleanliness

- 1) A bridge course may be given to the students of English as a major in English proficiency and History of English language and Literature.
- 2) The Department infrastructure may be upgraded to with ICT tools and audio visual aids
- 3) The number of teachers should be increased from four to atleast seven.

Number of teachers should be increased from 4 to 7

All is better

I would like to suggest for infrastructural development in each department especially for those department which is newly created like the department of statistics.

- 1) Regular feedback to be taken from the stakeholders
- 2) Equal distribution of work in and out of classrooms i.e teaching and non teaching responsibilities.
- 3) Each committee needs to be more active and self - motivated
- 4) Students need to get performative platforms on a regular basis.

For creating interactive classes,equip the classroom with smart technology like smart boards and smart labs.

1. विभाग में शिक्षकों की संख्या नये पाठ्यक्रम को भार के अनुसार बढ़ाई जानी चाहिए।
2. कक्षाओं की संख्या अपर्याप्त है।

३. चतुर्थश्रेणी कर्मचारी की नियुक्ति अपेक्षित है।

4. विभागीय पुस्तकालय को सुदृढ़ बनाने की आवश्यकता है।

कॉलेज में संतुलित शैक्षणिक माहौल को विकसित कर और कालेज स्तर पर छात्र छात्राओं से प्रायोगिक कार्य निरंतर करवा कर, उनकी भागेदारी को सुनिश्चित करते हुए पठन पाठन के कार्य को और असरदार और लाभकारी बनाया जा सकता है।

एकता में बाल है। महाविधालय की प्रगति हेतु संकृणता का त्याग सभी शिक्षक संस्थान हित में समर्पित हो। प्रधानाचार्य महोदय प्रत्येक माह प्रत्येक विभाग का दौरा करे और बातचीत करे। इससे एक नवीन ऊर्जा का संचार होगा।

समाशयाए सुलझती जाएंगी

संस्था के सभी सदस्य ईमानदार और कर्मठ बन जायें तो संस्था का समुचित विकास हो सकता है।
